

I am writing in response to the banks wishing to weaken the do-not-call list. I feel that this is one of the best bills that has ever been passed. For this alone, I will vote for Steve Carter every time!!!!

Case in point- My mother was ill, I was at home on a ladder painting, I had to get down and answer the phone three times in one hour. Guess what? Each time it was someone trying to sell me something! I couldn't just let it ring in case she was in a crisis.

Now, I don't have to worry about the phone ringing, I know the caller is someone I want to talk to!

Second, I feel that the no-call-list protects the elderly from potential scam artists.

Please do not make any changes. If the people of Indiana wanted their phone lines open to anyone, they would not have signed up for the list!

Thank you for your time,

Laura Martin
